

CHANDLER PARK RESERVE BORONIA

CHANDLER PARK RESERVE
ELLIOT STREET
BORONIA

Chandler Park Reserve in Boronia demanded a community space that provided shelter, play areas, a BBQ and seating. The families who attended the netball courts on the weekends desperately needed a place that they could utilise in many ways. They required a community space that would enable them to entertain their toddlers, or cooking for the multitudes after their games.

IT STARTED IN 2017,
WITH THE DEMOLITION
OF DISUSED ASPHALT
NETBALL COURTS.

Knox City Council wanted to deliver a community multi-use park. This consisted of a skate ramp, drinking fountain, soccer net, and basketball court with hoop, funky art features & natural play elements.

Our biggest challenge was protecting the matured eucalyptus trees while operating heavy machinery during placement of materials and proving storm water drainage and electrical services to the custom made BBQ

What we love about this project is that every element is being used & the community is able to enjoy it all in the one location.
